Clean Ocean Action is a 501(c)(3)
tax exempt nonprofit organization.

Printed on 100% recycled paper.

“Feet on the Beach, Hands in the Sand” Since 1985: An Overview

Waste, trash and litter find their way into our waterways from many sources and are harmful to animals that mistake it for food and/or become entangled. It often starts on land as litter and is either windblown or carried by stormwater into waterways, where it ultimately flows into the sea and washes up on beaches. In addition to endangering wildlife, litter-covered beaches also negatively affect tourism and the coastal economy. In response, thousands of dedicated volunteers—the tall and the small—have mobilized for Clean Ocean Action’s (COA) Beach Sweeps every Spring and Fall for 36 years. Since launching the region’s first beach cleanup program in 1985, over 157,863 volunteers have participated and removed and tallied 7,938,058 pieces of debris from New Jersey’s beaches and waterways. By removing and learning more about litter, volunteers make beaches and waterways cleaner and safer for wildlife and people alike.

Year after year, plastic consistently accounts for the highest proportion of collected debris. Plastic in the marine environment breaks apart into smaller and

smaller pieces, making it more “bite size” for many more species and ages of marine life. This is a human-caused, and thus, human-solvable problem. The goal of the Beach Sweeps is to reduce and eliminate sources of litter by engaging people to remove and document harmful debris, creating evidence that can be used to enact policies and identify solutions. Participants also become aware of the problems of a wasteful society and are empowered to make personal behavior changes.

COA compiles the data into an annual report that is used to advocate for legislation and ordinances to reduce sources of pollution. The annual report presents results, notes interesting finds, acknowledges volunteers and sponsors, and becomes a reference and resource about marine litter along the Jersey coast. The report also identifies trends, tracking new items and those that are becoming rare. In addition, COA gives the data a global boost by sharing Fall Beach Sweeps data with Ocean Conservancy’s International Coastal Cleanup (ICC).

“ This is a human-caused, and thus, human-solvable problem. ”

2021 Beach Sweeps Highlights:

- After the Spring 2020 Beach Sweeps were canceled due to the COVID-19 pandemic, the usual biannual event returned - and broke records - in 2021 (pg. 4)
- 10,003 volunteers removed 513,605 items in just 6 hours (pg. 4)
- Plastic and foam items continued to dominate, accounting for 82.3% of total items collected (pg. 7)
- Plastic pieces fell from #1 on the Dirty Dozen (most common items) for the first time since 2013 (pg. 7)
- Personal protective equipment and other “ocean offenders” (new litter items) were recorded for the first time (pg. 4)
- Silly, bizarre, and just plain gross - “Roster of the Ridiculous” (pg. 5)

Beach Sweeps Data in Action

Reducing Sources of Marine Debris

Thanks to all of you volunteering for Beach Sweeps – collecting, tallying, and removing trash from beaches – meaningful and powerful laws are in place to reduce sources of marine debris!

NJ Law Provides Missing Link for Successful Recycling... and Bans Foam Peanuts!

NJ's recently enacted Recycled Content legislation will gradually increase recycled content requirements of up to 50% for plastic containers, plastic beverage containers, plastic & paper bags, plastic trash bags & glass containers. COA led a coalition of environmental advocates to support the bill. Beach Sweeps data was used to highlight the problems of litter and lack of recycling incentives. This law creates incentives for recycling by providing a market demand for recycled material. Without the law, producers manufacturing these products use virgin or new materials which waste valuable resources and leave piles of recycled materials unused. This is particularly onerous for plastic materials as they are made from fossil fuels; thus, using virgin or new material also increases climate change as well as other pollution. The law also bans the bane of many foam packing peanuts—effective as of January 18, 2024.

NJ's Long-Awaited Premiere Single-Use Waste Reduction Act Kicks-In May 4, 2022!

A great day for the ocean is May 4, 2022, when the law banning certain plastic items goes into effect. The bans send a strong and clear message that Single Use Waste is unnecessary and unacceptable. The law:

- BANS plastic bags from all stores and bans paper bags from stores larger than 2500 sq.ft. (large grocery stores). All other stores can use paper.
- Allows only reusable bags for sale or distribution. “Reusable carryout bag” must be made of polypropylene fabric, PET nonwoven fabric, nylon, cloth, hemp product, or other washable fabric, and have stitched handles, and be designed and manufactured for multiple reuses.
- BANS all persons and food service businesses from selling/offering for sale any polystyrene foam food service product and prohibits all food service businesses from selling/providing any food served in a polystyrene foam food service product - that means no foam takeout containers/foodware. There is an extension until May 4, 2024, for pre-packed products, meat trays, long straws and small cups.

A “polystyrene foam food service product” is defined as a product made, in whole or in part, of polystyrene foam that is used for selling or providing a food or beverage, and includes but is not limited to a food container, plate, hot or cold beverage cup, meat or vegetable tray, cutlery, or egg carton.

Finally, as of November 4, 2021, plastic straws were banned and only available upon customer request.

2021 Flotsam and Jetsam: The Story in The Numbers

Cumulative Numbers Since 1985:

- **7,938,058** pieces of trash removed
- **157,863** volunteers donated **947,178** hours

2021 Beach Sweeps Data Highlights:

- A record **513,605** items were collected by **10,003** volunteers
- **82.32%** of debris collected was plastic, including foam
- Plastic bottle caps/lids reached a record number of **69,454**
- Food and candy wrappers/bags also reached a record number of **58,589**, a **16.55%** increase from 2019

2021 Dirty Dozen Highlights:

- Plastic bottle caps/lids are the **#1** item for the first time since 2010, exceeding plastic pieces
- Plastic pieces fell to **#2** for the first time since 2013
- Plastic beverage bottles, cigar tips, glass pieces, and plastic store/shopping bags all fell in the ranking
- "Other plastics" jumped from **#12** to **#7**, increasing **57.87%** from 2019
- Paper pieces (**#8**) returned to the Dirty Dozen for the first time since 2017, after increasing **52.41%** from 2019

Seasonal Changes from Spring to Fall 2021:

- 67 out of 95 items (**70%**) were significantly higher in Fall than in Spring, including: dog waste bags, plastic beverage/soda bottles, smoking-related litter (cigarette filters, cigar tips, e-cigarette waste), plastic food takeout litter, and ice cream spoons/sticks
- Fewer face masks were found in Fall as compared to Spring
 - Disposable masks decreased by **23.09%**
 - Reusable masks decreased by **42.69%**

New to Data Card

In 2021, COA released an updated data card that includes the newest "ocean offenders" - types of litter that have become increasingly common over the last several Beach Sweeps. Below are some of the items which were recorded for the first time:

Dog waste bags: 1,667

E-Cigarette Cartridges/Caps/Pens: 3,686

Plastic food takeout containers: 2,020

Cotton swab sticks: 274

Dental floss picks: 2,172

Disposable wipes: 1,523

PPE - Disposable face masks: 3,080

PPE - Reusable face masks: 538

PPE - Disposable gloves: 1,310

Comparative Numbers: 2021 Data Results to 2019^

Substantial increases:

Item:	Increased by:	2021		2019
Other foam plastic	+125.95%	5,486	up from	2,428
Foam packaging materials	+82.94%	4,290	up from	2,345
Plastic toys	+58.86%	4,364	up from	2,747
Balloons (mylar & rubber)	+35.67%	5,234	up from	3,858
Plastic bottle cap rings	+32.26%	9,072	up from	6,859

Substantial decreases:

Item:	Decreased by:	2021		2019
Diapers	-40.73%	147	down from	248
Total glass	-38.95%	14,697	down from	24,074
Plastic pieces*	-29.53%	67,628	down from	95,963
6-pack holders	-27.06%	275	down from	377
Condoms	-26.84%	368	down from	503
Tampon applicators	-17.58%	3,211	down from	3,896
Volunteers	-6.72%	10,003	down from	10,724

**In the Dirty Dozen (see page 7)*

These numbers likely reflect high seasonal use, rather than a difference in volunteer effort, as the number of volunteers was very similar in Spring and Fall.

^Due to the pandemic, 2020 data is irregular and not used for comparisons.

Roster of the Ridiculous: Everything Under the Sea!

Weirdest of the Weird

Invisalign, full set of dentures, hunk of hair, yearbook, pieces of a globe, Turkish Airlines hygiene kit, Amazon packages, shower head, weather vane, wicker light fixture, water testing equipment, art easel, pickup truck running board

Rated R

thong, used narcan kit, Rhino 88 Male Enhancement, condoms, glow in the dark condom, empty weed bags, bullet casing, gun cartridge, gun case, Juul pods, unopened small vodka bottle, vape pen, mason jar of hooch, Fireball bottles

Planes, Trains, & Automobiles (& Boats)

boat parts, car headlight cover, cloth from boat covering, engine, floating dock, gas can, part of car windshield, traffic cone, car bumper, car hose, car part, half of a tire, plastic orange car indicator light, set of rusted car keys, car air freshener, sink from a boat

Fake Out

plastic baby, gel toy alligator, fake fern frond, tiny plastic monkey, plastic flower, painted rock, greens from cell tower, check for \$1, fake ivy leaf, fake flowers, plastic plant, plastic spider ring, silk flower petal, fake eye, message in a bottle

Shell-f Care

razor, nail file, medical marijuana case, medical vial, hairpick, deodorant, disposable eye dropper, tooth brush, pacifier, lip balm, lipstick, tooth paste, unused face-masks sealed in wrapper, hospital bracelet, contact lens case, albuterol sulfate, rosary beads

The Great Outdoors

basketball, tent stakes, golf ball, golf club, golf tee, tennis ball, shot-put disc, sleeping bag, tiki torch, half of a bike pedal, bike reflectors, bike handle grip, beach chair, bird seed bags, bouquet of flowers, buoy, lawnchairs, shovel

Fun & Games

Lego, Lego wheel, metal toy car, boomerang, crawl-through toy, cloth frisbee, porcelain doll, Buzz Lightyear, board games, ping pong balls, Barbie Doll clothing, GI Joe, Nerf bullet, rope dog toy, arrow, part of a bowling ball

Rest in Peace

dead baby shark, dead deer, dead seahorse, dead stingray, laminated funeral card

If the Shoe Fits...

bathing suit, heel of a shoe, child's shoe, baby's shoe, shoe sole, boot, hat, clothes hanger, pair of socks, sandals, umbrella, metal necklace, beach bag, sunglasses, purse, hair tie, wig, prescription glasses

Volunteers found a fully intact swimsuit last year.

Junk Drawer

cork, cup of buttons, scissors, USB cord, seven foot wire, chapstick, keys on keychain, lottery ticket, phone chargers, flash drives, glue stick, parking ticket, \$20 bill, battery pack, bubble wrap, pad lock, airpods

It's a Sign

"please keep off the dunes" sign, pesticide signs and sticks, stop sign post, large warning sign, caution tape

Home Sweet Home

countertop, piece of sheet metal, sheet rock, fence, part of a wooden gate with hinges, metal pipe, cinder block, heavy entangled rope, mini fridge, propane tank, Trex decking, metal door, American flag attached to pole, styrofoam block, shingle pieces, linoleum floor tile, aluminum siding, roofing paper, cat litter container, chair cushion, couch cushion, dishwasher parts, fencing, mattress stuffing, lamp, toilet brush, TV remote, recycling bin top, rubber mat, door mat

If it Ain't Broke, Don't Fix it!

spray foam, o-rings, pliers, wrench, screwdriver, broom handle, bucket with giant steel screws, dust pan, fire extinguisher, grill brush, insulator, metal worm clamp, mop handle, mouse trap, old propane can

Party Time

CD holder with CDs from Limp Bizkit, plastic accordion, harmonica, cassette tapes, Easter eggs, fireworks, party poppers, Christmas tree ornament, shamrock coin, bottle opener, candles

NOTES FOR BEACH SWEEPS DATA:

The Annual Beach Sweeps Report can be used to study and understand marine debris. When analyzing annually or over time for trends, it is important to note that the amount of debris collected depends on a variety of factors, such as weather, tides, participants, and accuracy.

Long-time Beach Captains Ted and Elaine Jermansen, proud parents of long-time COA employee Kari Jermansen Martin.

Percent Breakdown by Category/Debris Type

2021 Totals	Spring	Fall	Total	% of Total
Plastic	171,902	207,519	379,421	73.87%

Pieces of Debris	240,919	272,686	513,605	
Volunteers	5,014	4,989	10,003	

2021 Dirty Dozen:

The Most Commonly Collected Pieces of Debris

The Dirty Dozen lists the worst offenders of marine litter: the top twelve most commonly collected items at the Beach Sweeps. Plastic, especially single-use items, is always prevalent on the list. Plastic pieces have held the number one spot on the list since 2013, but in 2021, they fell to number two, exceeded by plastic caps/lids. A record **69,454** plastic caps/lids were collected, putting this item at number one for the first time since 2010.

A Pig with a Sweeping Message

Upon arrival to the Beach Sweeps at Ortley Beach in Ocean County, volunteers squeal in delight to see Hamlette the mini-pig poised and ready to greet sweepers and to hit the beach in search of unsightly debris. Hamlette accompanies his owners Crystal DeCaro and Ryan Carr, who have served as Beach Captains for a decade. Hamlette, a beach lover himself, helps to spread awareness of the importance of keeping the beach clean – for animals and people alike!

Junior Beach Captains Take the Lead

High school students across the state have taken their "sweeping" to the next level by becoming Junior Beach Captains. Trained by COA, these Junior Beach Captains are paired with Beach Captains and help with all aspects of the Beach Sweeps, including event promotion, day-of coordination, and post-Sweeps data compilation. Waves of thanks to the 31 Junior Beach Captains who participated in the 2021 Beach Sweeps!

Pictured: Beach Captain Liz Lawrence with Junior Beach Captains Katie and Sofia Barreiro at Anchorage Beach in Sea Bright

Un-Waste Composts Piles of Peels from Beach Sweeps

In 2021, COA partnered with Un-Waste, a Monmouth County-based organics recycling and micro-hauling business. Thanks to their services, hundreds of banana and orange peels from Beach Sweepers at Sandy Hook were diverted from the landfill to be composted. Visit unwastemovement.world to find out if Un-Waste offers residential curbside pickup in your town.

Corporate Beach Sweeps

COA's team-building Corporate Beach Sweeps program had an excellent year in 2021 with 10 companies and 310 employees removing 20,262 pieces of debris. Corporate Beach Sweeps Teams included Brother International (photo, left) and Neuberger Berman (photo, right). To learn more, call 732-872-0111.

A Ballooning Problem

Balloons may be pretty, festive, and fun, but when released outdoors (intentionally or not) they can become hazardous, and even lethal — moreso if they are filled with helium and become airborne. They drift for a short time, but ultimately fall from the sky, littering the land, waterways, and ocean. Marine balloon litter is a well-documented and growing problem worldwide.

Consider that mylar and latex balloons:

- Pose one of the greatest risks to marine life through ingestion, when animals mistake them for food, or from entanglement by balloons' ribbons and strings.
- Get entangled on electric powerlines, causing outages and posing serious risks to workers who must remove them.

Moreover, on Earth, helium is a rare gas element that is critical in fields of science, medicine, high-tech manufacturing, space exploration, and national defense. Wasting it on frivolous uses, such as for balloons, should be avoided.

What can be done? Though awareness is growing, state and national laws are needed due to the vast distances drifting balloons can travel, as evidenced by balloons found on beaches from inland states. COA is urging the New Jersey State Legislature to pass a comprehensive bill that would ban intentional balloon releases and prohibit unattended tethered balloons, as well as serve as a national model. **Take action for a strong NJ law! Sign the petition at www.change.org/NJOutdoorBalloonBan.** To learn about efforts around the country to reduce balloon pollution, visit BalloonsBlow.org.

Balloon Numbers Soar at Sweeps

77,397 balloons collected since 1999

5,234 balloons collected in 2021

Record of **5,470** balloons collected in 2018

Balloons litter our shorelines.

The Haemmerle Family saved a string of dozens of balloons from drifting out to sea at Island Beach State Park in October 2019.

Balloons get caught in telephone pole wires.

Beach Sweeps Data Card in Spanish Launched in 2022!

FORMA DE DATOS

Llene completamente los DOS lados, por favor.

Clean Ocean Action is thrilled to release its Beach Sweeps data card in Spanish this year! Spanish data cards have been in demand at many Beach Sweeps sites across New Jersey. Clean Ocean Action is committed to diversity, equity, and inclusion, and is excited to expand its outreach in communities across the state. Wave of thanks to Mandy Wheeler for providing translations. ¡Que disfruten los Beach Sweeps!
