**CITY OF HOBOKEN
ORDINANCE NO.:**

**AN ORDINANCE TO REPLACE HOBOKEN CITY CODE § 148
ENTITLED "PLASTIC BAGS" TO REGULATE THE USE BY RETAIL
ESTABLISHMENTS OF SINGLE USE PLASTIC CARRY-OUT BAGS
AND RECYCLABLE PAPER BAGS AND TO PROMOTE THE USE OF
REUSABLE BAGS IN THE CITY OF HOBOKEN**

WHEREAS, on average, one person uses 500 single-use disposable bags per year, 4 billion single use shopping bags are used annually in New Jersey and 102 billion are used nationwide; and,

WHEREAS, windblown plastic bags degrade our City and the Hudson River, and 80% of the plastic and trash that finds its way into our oceans comes from the land; and,

WHEREAS, microplastic pollution in oceans can accumulate toxic chemicals, harms marine life, and can be consumed by humans via seafood; and,

WHEREAS, 12 million barrels of oil are used annually to make the plastic bags that Americans use; and,

WHEREAS, the City of Hoboken desires to reduce the use of single-use plastic bags by all residents and merchants; and,

WHEREAS, the Hoboken Green Team established a subcommittee to lead a reusable bag education program, with the specific goal of reducing single-use plastic bags in Hoboken; and,

WHEREAS, the Hoboken Green Team has educated residents and merchants about the importance of reducing the use of single-use plastic bags through events such as the annual Green Fair and movie screenings, educational information on the City website, and distributing nearly 1,000 reusable bags to Hoboken residents; and,

WHEREAS, through educational outreach by the Green Team, the general Hoboken community, including the business, educational, and general populace, have indicated their desire to eliminate the use of single-use plastic bags and thus join in the movement to act in ways that demonstrate environmental, health, and economic responsibility to our planet and to our local and regional populations; and,

WHEREAS, Hoboken residents understand that reusable bags consume far less energy and natural resources than single use plastic carry-out bags and recyclable paper carry-out bags; and,

WHEREAS, all single use carry-out bags are wasteful, and while recyclable paper carry-out bags present adverse impacts on the environment, these impacts are less so than single use plastic carry-out bags because they naturally decompose in the environment while plastic bags degrade at a much slower rate and release toxic materials during that process as well as pollute waterways; and,

WHEREAS, in accordance with N.J.S.A. 40:48-2, a municipality in New Jersey may enact such ordinances “as it may deem necessary and proper for the good government, order and protection of persons and property, and for the preservation of the public health, safety and welfare of the municipality and its inhabitants” and regulating the use of plastic bags will preserve the public health, safety, and welfare of the municipality.

NOW, THEREFORE, the City Council of the City of Hoboken does hereby Ordain as follows:

SECTION ONE: The full text of Hoboken City Code Chapter 148 entitled “Plastic Bags” shall be replaced with the following:

§ 148-1 DEFINITIONS

The following definitions apply to this Ordinance:

- (1) The term “customer” means any person purchasing goods or services from a retail establishment.
